The external transfers feature enables you to add accounts that you own at other financial institutions to your Cedar Point Federal Credit Union digital banking profile and initiate funds transfers. If you do not already have an external account set up to transfer funds between, please follow this guide.

Step 1: Initiate Transfers to External Account

- To initiate a transfer, proceed to 'Transfers & Payments', and select 'Transfer Money'.

- Your external account will appear in the 'From' and 'To' drop-downs and can be selected to initiate a transfer. Once you select your designated account, you can proceed through the funds transfer process as usual.
